

A cookie is a small file of letters and numbers that we store on your computer when you browse our website. These cookies allow us to distinguish you from other users of the website which helps us to provide you with an enhanced experience when you browse our website and also allows us to improve our site.

The first three cookies are directly used by Damsons Future Planning Limited.

Two of the cookies that we use allow Damsons to track any goods that a customer places into their shopping cart. The third cookie contains a unique code for each customer. This allows Damsons to attribute the shopping cart data within our database to each individual customer. No personal data is stored within these cookies.

We also use a type of cookie we use are 'analytical' cookies. They allow us to recognise and count the number of visitors and to see how visitors move around the site when they're using it. This helps us to improve the way our website works, for example by making sure users are finding what they need easily. Read more about the individual analytical cookies we use and how to recognise them [here](#).
